Micro Compliance Manager

03 / OUR APPROACH

A clear path forward

01 Scope and understand

Agree objectives, boundaries, stakeholders, timing and applicable requirements.

02 Assess and implement

Review the current position, prioritise gaps and develop practical controls and workflows.

03 Review and improve

Examine evidence, assign owners, track remediation and agree next steps.

04 Support assessment

Where applicable, support coordination with an independent certification or attestation body.

LET US DISCUSS YOUR REQUIREMENTS

contact@microapz.com | microapz.com

Scope, availability, deliverables and product access are agreed per engagement. Independent bodies make certification and attestation decisions. Testing requires written authorisation and agreed rules of engagement.
